

# RECORDS FALL AT STATE TRACK MEET

## Wichita Highs Won Trophy Cup Given by Arthur Capper.

### 1913 12 RECORDS LOWERED

Special to The Capital. Manhattan, May 17.—Twelve state high school records were smashed in the third annual track meet here today on the college field. In the discus last year's mark was not equalled. In the high hurdles the record was equalled. In all other events the records were broken. Butler, the husky negro from Hutchinson, was the individual star of the meet, taking four firsts and a second and winning individual honors.

Wichita won the meet over the nearest competitor, Hutchinson, 39 to 35. A perfect day for track work and a fast track made conditions ideal. Butler broke four records. In the pole vault, D. Patterson, of Hutchinson, raised the record of 9 feet 6 inches to 10 feet 10 inches, a good height for high school athletes. Treweweke, high jumper, 5 feet 3 1/4 inches and four of the other contestants lasted to 5 feet 3/4 inches. The 380 was a pretty race: Rodkey of Irving, obtaining the lead and holding it well to the finish. In the relay, Wichita had the lead but lost out and Hutchinson won with ease. In the broad jump Butler had made his jump and passed up his last chance. Then Damon of Stockton, went over former marks a couple of feet and won the event with a leap of 21 feet 3 3/4 inches. The poorest event was the discus, the winning hurl being much lower than the mark of last year.

Following the meet President Waters presented the medals to the athletes donated by Arthur Capper. First place counted 5 points, second 3 points, third 2 points, and fourth 1 point.

Lawrence, Kan., May 17.—After defeating their ancient enemy in baseball, football and indoor track, Kansas was defeated by Missouri in their annual field meet, by the score of 62 to 47 here this afternoon. Although a heavy rain had fallen in the morning, the sky cleared and by 3:30 the track had dried sufficiently to make fast time possible. The Jayhawkers started the meet by taking first in the hundred yard dash and both first and second in the one mile run. John Patrick Nicholson took the high hurdles easily, which was expected by the Kansas followers, as they knew John of old. The crowd was surprised when Cissna, of Kansas, who has not been considered a particularly quarter miler, beat Hutsell in one of the hottest races of the meet.

Up to the 220 hurdle event, Kansas looked good for first in the meet, but the Tiger runners came back strong in the following events, and took first in every event except the relay.

Missouri took first place in all the field events, and in the weights both first and second, Thatcher and Drumm being bigger and stronger men than the Kansas entries.

The one mile relay, at the end of the battle, was the prettiest race ever run on McCook field. In the first round the Kansas runner beat his man by a scratch, in the second Missouri led; in the third Kansas led, and in the fourth Missouri's big football man, Knoble, started with a lead of nearly four yards over Black, the Kansas runner. By magnificent sprinting, Black wore Knoble out and broke the tape a fraction of a second ahead of Knoble.

may be inoculated with human tubercular bacilli and those bacilli made avirulent by transplanting them through various cold-blooded animals. It takes a long time to make these cultures safe for use on a human, but there is no secret about the process. "The most important thing about this treatment is the diagnosis. It is absolutely necessary that a physician make a thorough diagnosis before using the serum. "The effect is this: The living tubercular bacilli when injected into a patient whose tubercular bacilli attack the human tubercular bacilli and destroy them." Dr. Beattie tells how the tubercular bacilli were discovered by Max Piorowski and how the preparations are made. He says he has obtained the right to the Piorowski serum for New York and New England and that he could furnish it to any physician of standing at what it cost him. Dr. Beattie plans to open a sanitarium for the treatment of tuberculosis.

## FOUL BREAKS GIRL'S JAW

Missouri Co-Ed Catching for Her Team, Badly Injured.

Columbia, Mo., May 17.—Miss Georgia Clark, of Rolla, Mo., a student in the University of Missouri, suffered a fracture of the jaw, it is believed, while playing baseball here today. The Missouri co-eds who take gymnasium work organized baseball teams this spring. Miss Clark is captain of the sophomore, and is catcher. A foul ball struck her face. Miss Clark was taken to the hospital. While her injury is not dangerous, it is quite painful.
